

Final motion: **Sand Replenishment Committee Recommendation** 2 June 2022

1. That this meeting of members of the Western Adelaide Coastal Residents Association Inc held 2 June 2022 call on the SA Government to immediately reinstate the promised volume of 500,000 m³ of sand onto West Beach.
2. That the SA Government provide a guarantee to replenish West Beach yearly of the known loss of a minimum of 115,000m³ of sand until such time as an independent scientific solution is implemented.
3. That the SA Government adopt a scientific integrated approach to develop a future coastal management plan by engaging a team of independent scientific experts, reporting directly to the Minister for Climate, Environment and Water, consisting of at least: a Coastal Engineer; a Coastal Geologist; a Marine Surveyor; a Marine Biologist; and an Oceanographer/Computer Modeller.
4. That the contract of engagement be ongoing and the terms of reference of engagement be subject to SA Government and coastal community agreement. That the government commit to a response within 6 months, with an ongoing strategy for a continuing whole-of-coast solution.
