My tree is my friend  
It will shine in my eyes  
It will be with me until I die  
I know this seems funny but this is not a  
joke  
I will love my tree until I get old  
It is my special place to be  
If my tree dies I will come with it and no-  
one will take my tree  
There are 15 billion trees getting cut  
down  
Our environment will suffer

When I see you, I  
relax. I hope no one  
comes to you with  
an axe. When your leaves  
sway, my sadness goes  
away. You provide me  
with shade and because  
of that my anger fades.  
And I also have to say  
YOUR MY  
TREE!

Thomas

A tree it shall be  
and a tree it once was  
and a tree you still are  
until death takes you.  
A tree gives life and takes life.  
It always has and always will.  
Shall the tree call and I shall answer  
to the tall and beautiful tree  
for I know it will protect me.

Trees are beautiful.

Trees have life.

But people cut them down with a knife.

Sadly they're no longer homes for millipedes

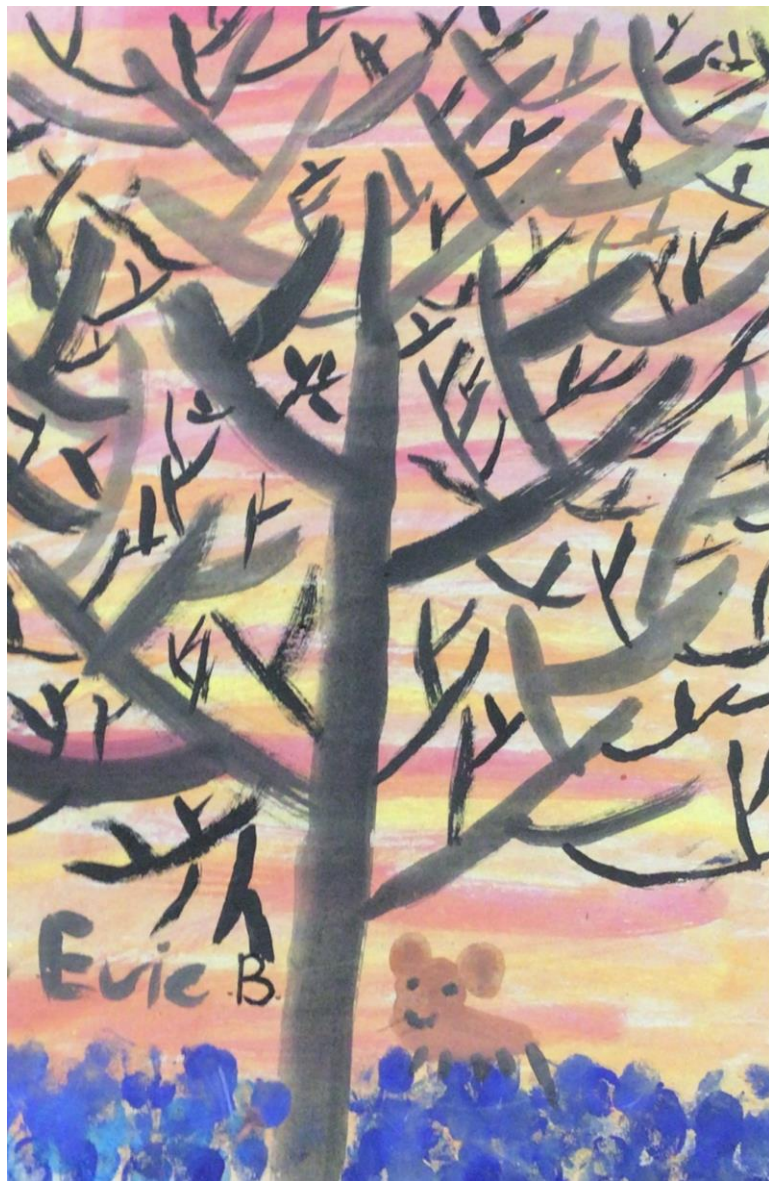

but still do a lot of good deeds

like help us breathe

and give us paper to do our work.

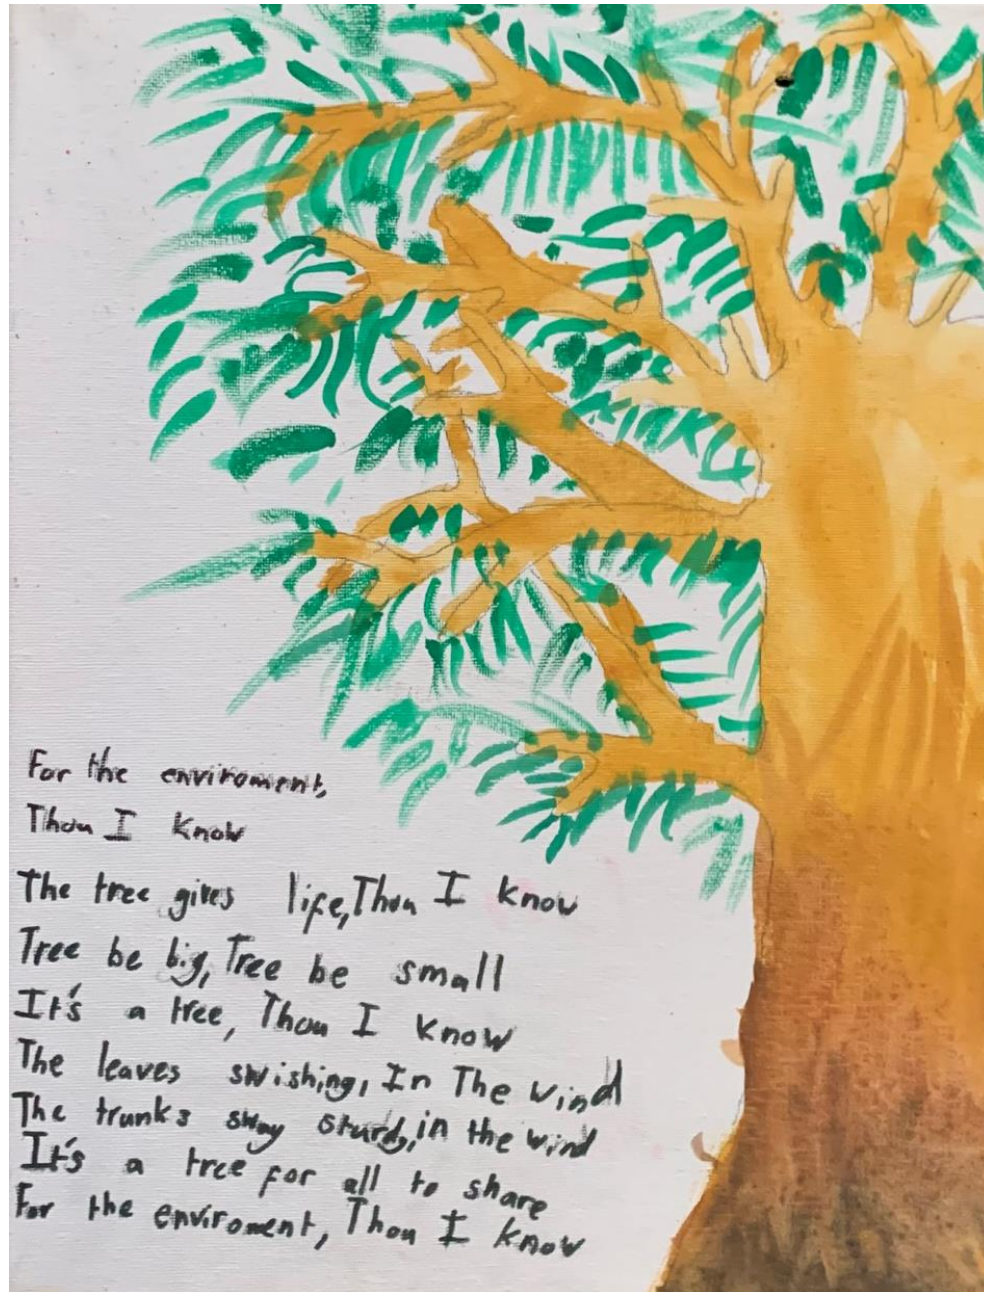

Trees, lovely trees.  
You make me have a lovely week.  
At school.  
At home.  
And everywhere I go.

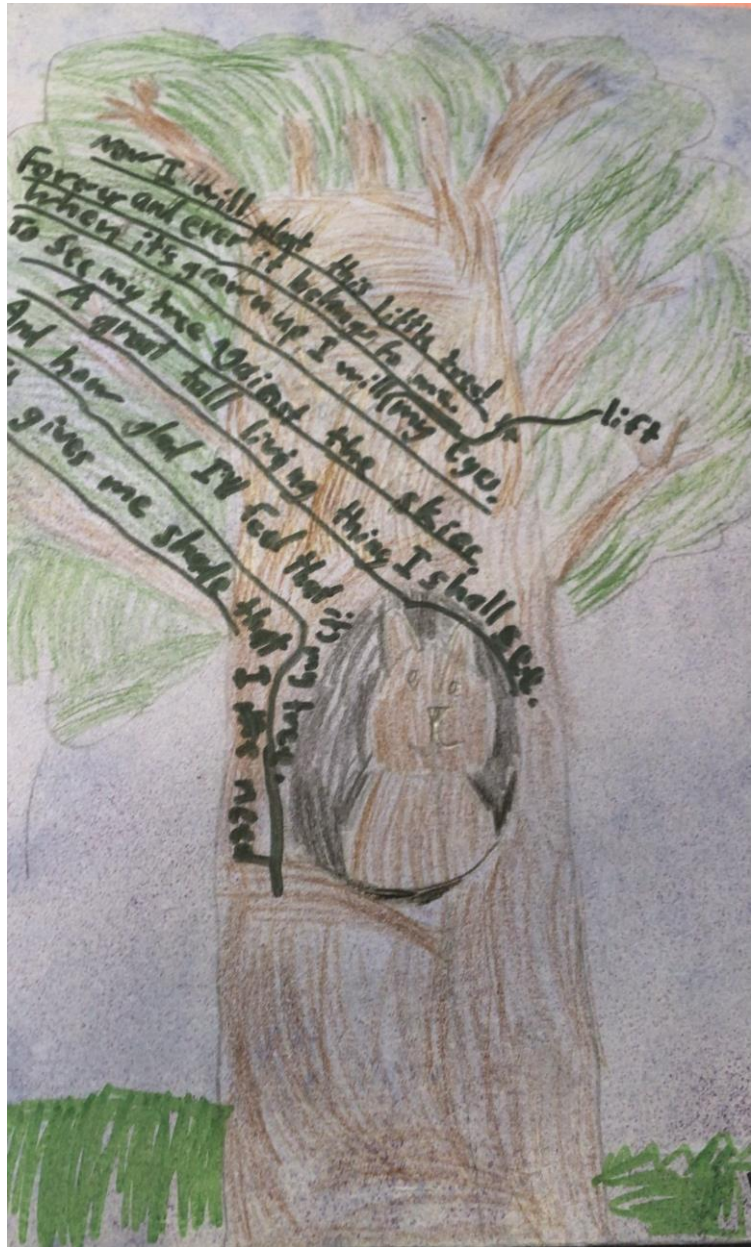

For the environment,  
Then I know  
The tree gives life, Then I know  
Tree be big, Tree be small  
It's a tree, Then I know  
The leaves swishing, In The wind  
The trunks stay sturdy, in the wind  
It's a tree for all to share  
For the environment, Then I know

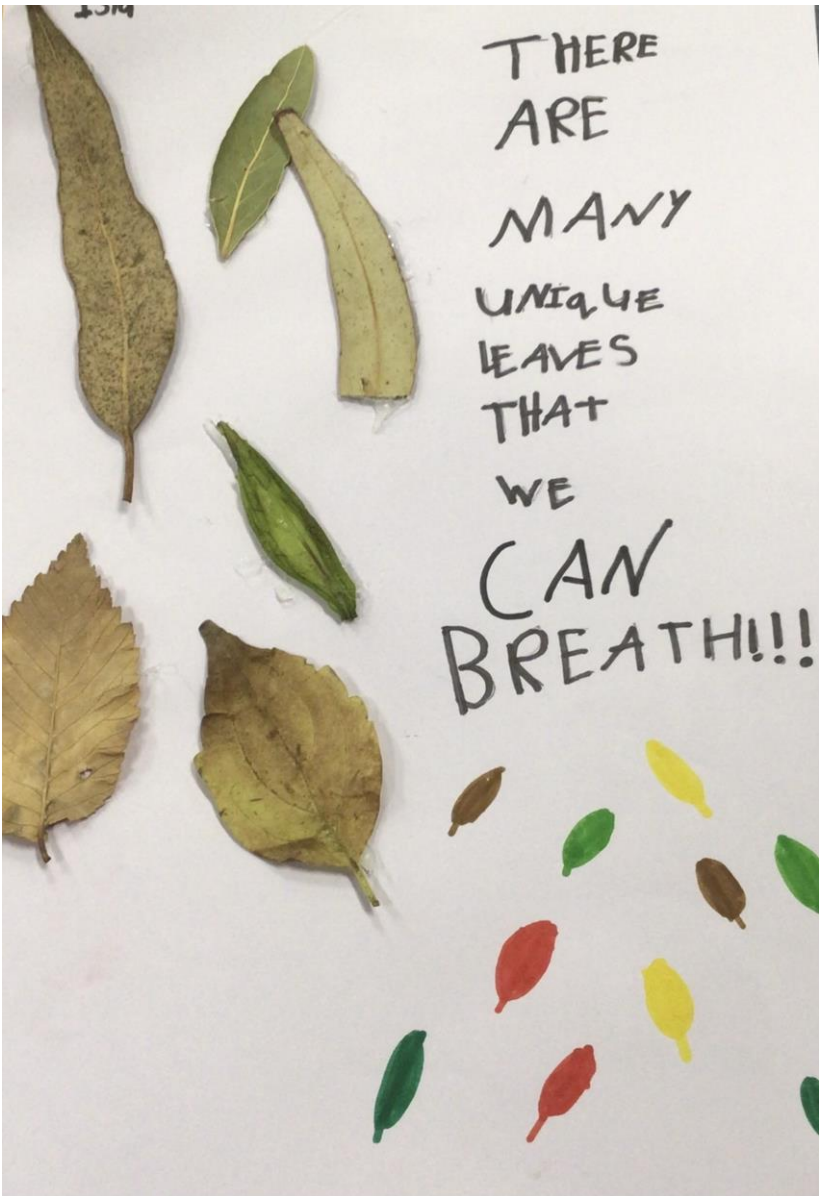

now I will plant this little seed for  
forever and ever it belongs to me  
where it's grown up I will my eye  
to see my tree against the stars  
A great tall living thing I shall see.  
And how glad I'll feel that it  
gives me shade that I may see

lift

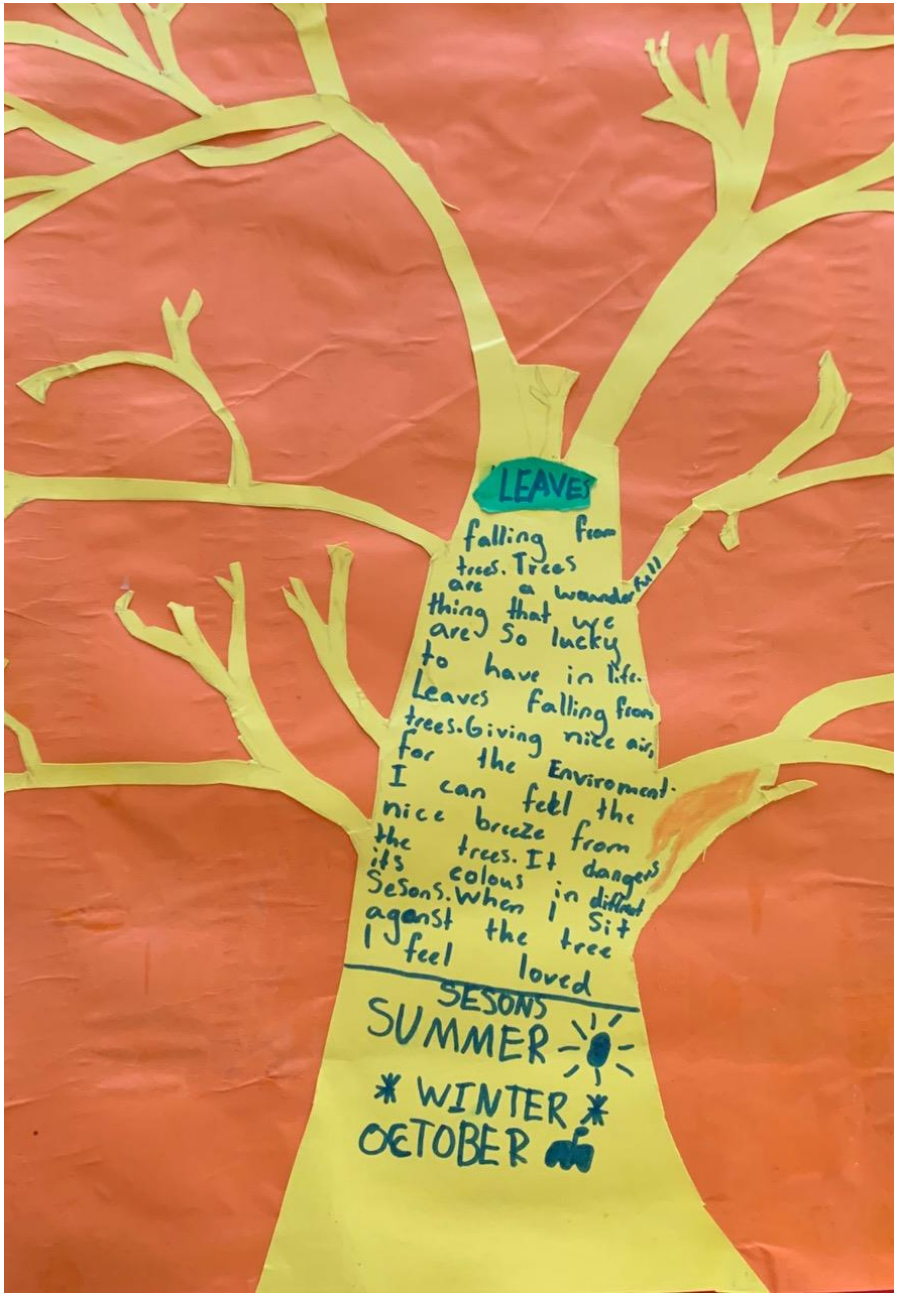

THERE  
ARE  
MANY  
UNIQUE  
LEAVES  
THAT  
WE  
CAN  
BREATHE!!!

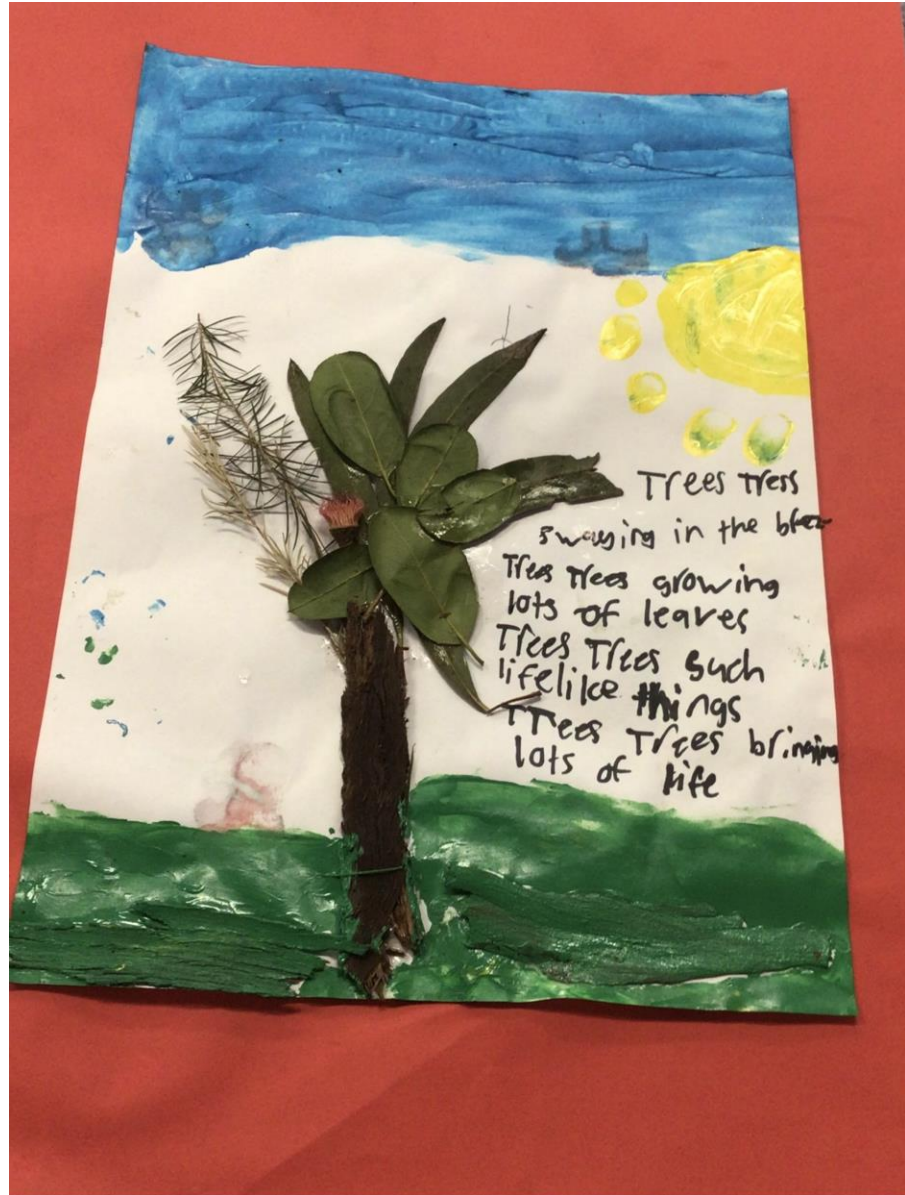

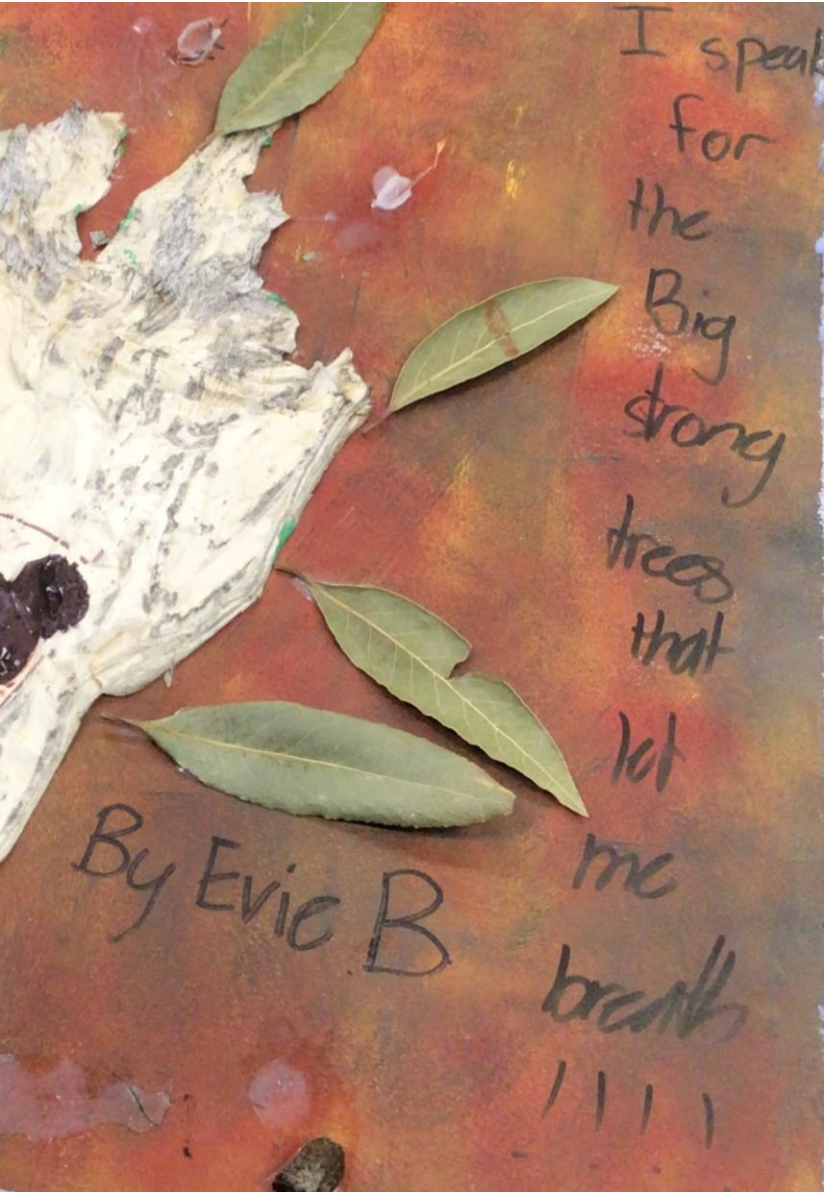

Trees trees  
swaying in the breeze  
Trees trees growing  
lots of leaves  
Trees trees such  
lifelike things  
Trees trees bringing  
lots of life

I speak  
for  
the  
Big  
strong  
trees  
that  
let  
me  
breathe

Bees love trees

A gum tree or  
oak tree any  
tree helps birds  
care for their  
chicks so  
animals don't  
play mischievous  
tricks!
