Teachers

Cat Acha, Ulla Hoffman & Simone Jesson

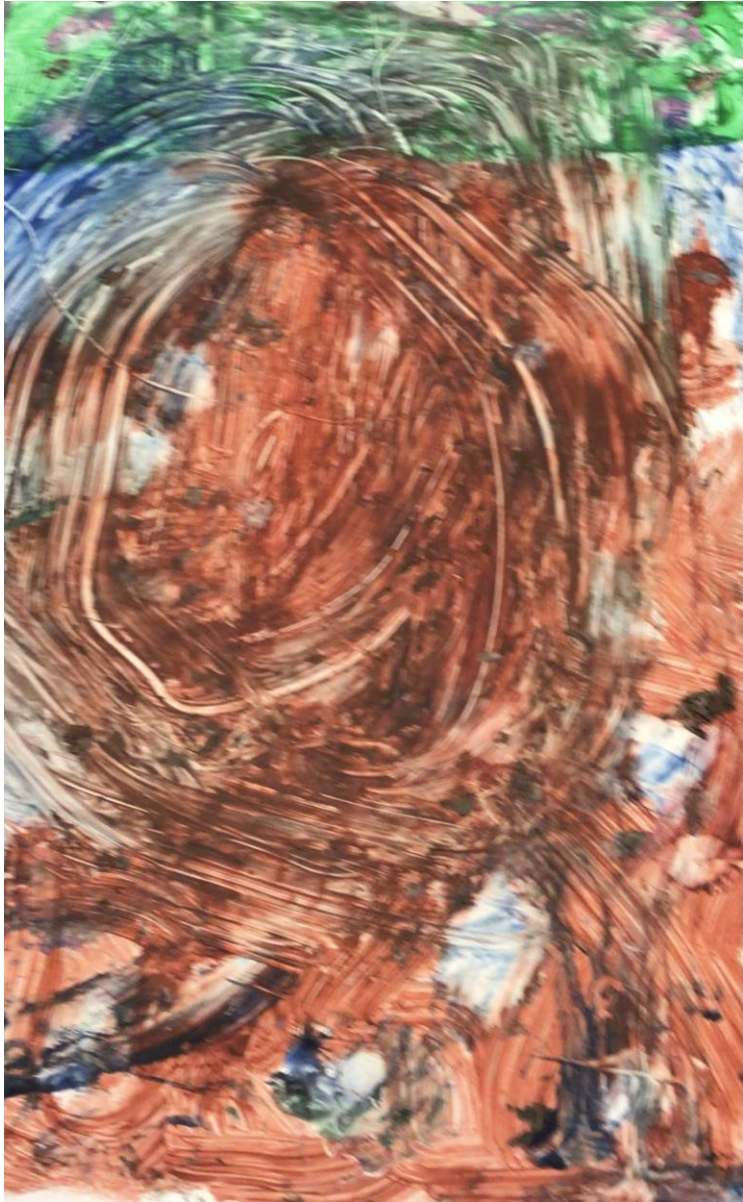

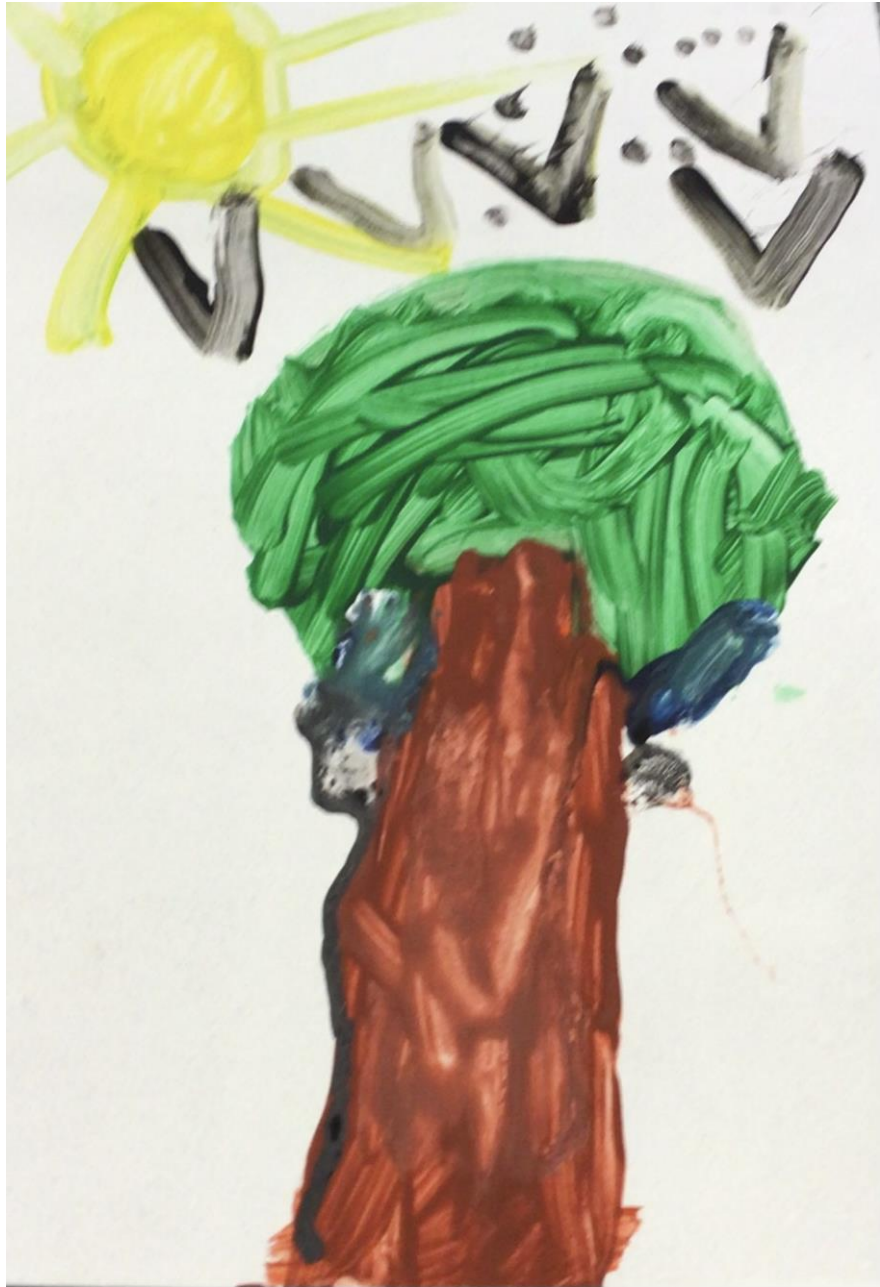

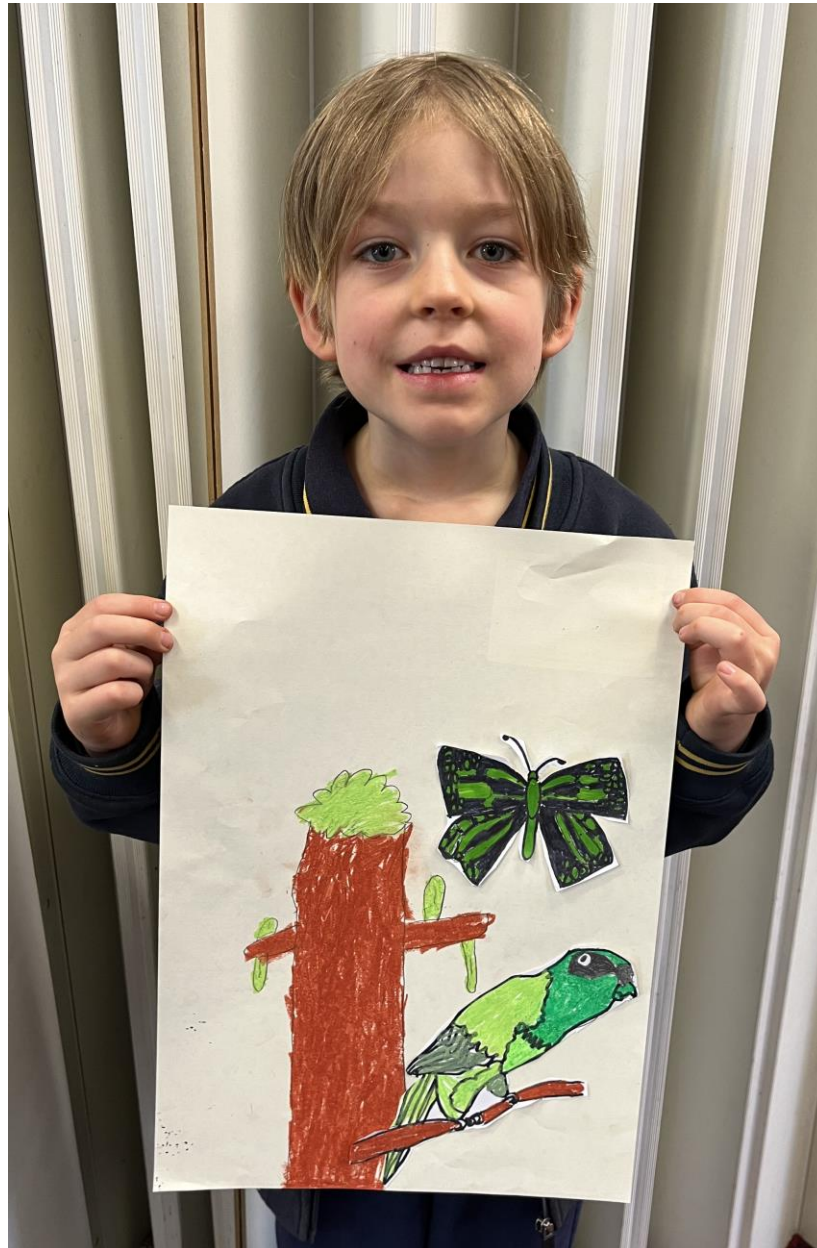

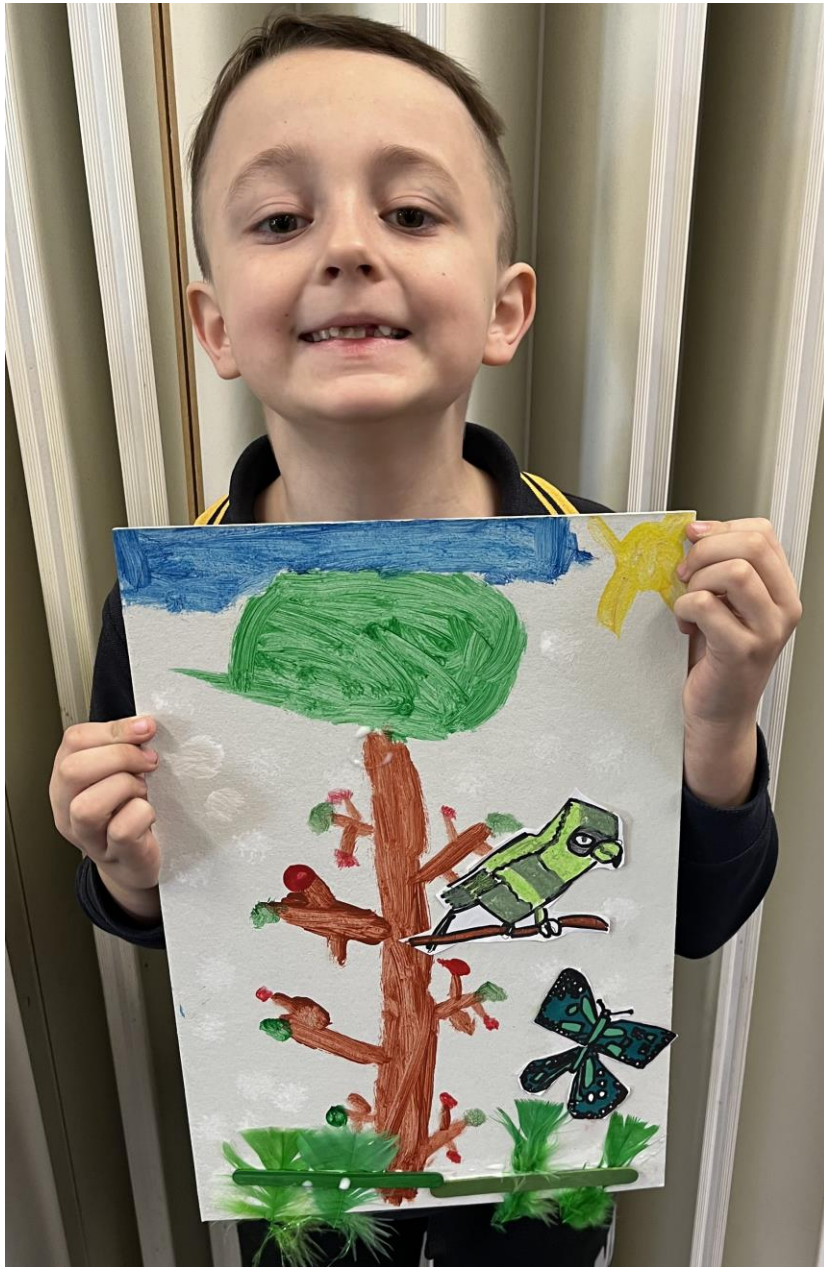

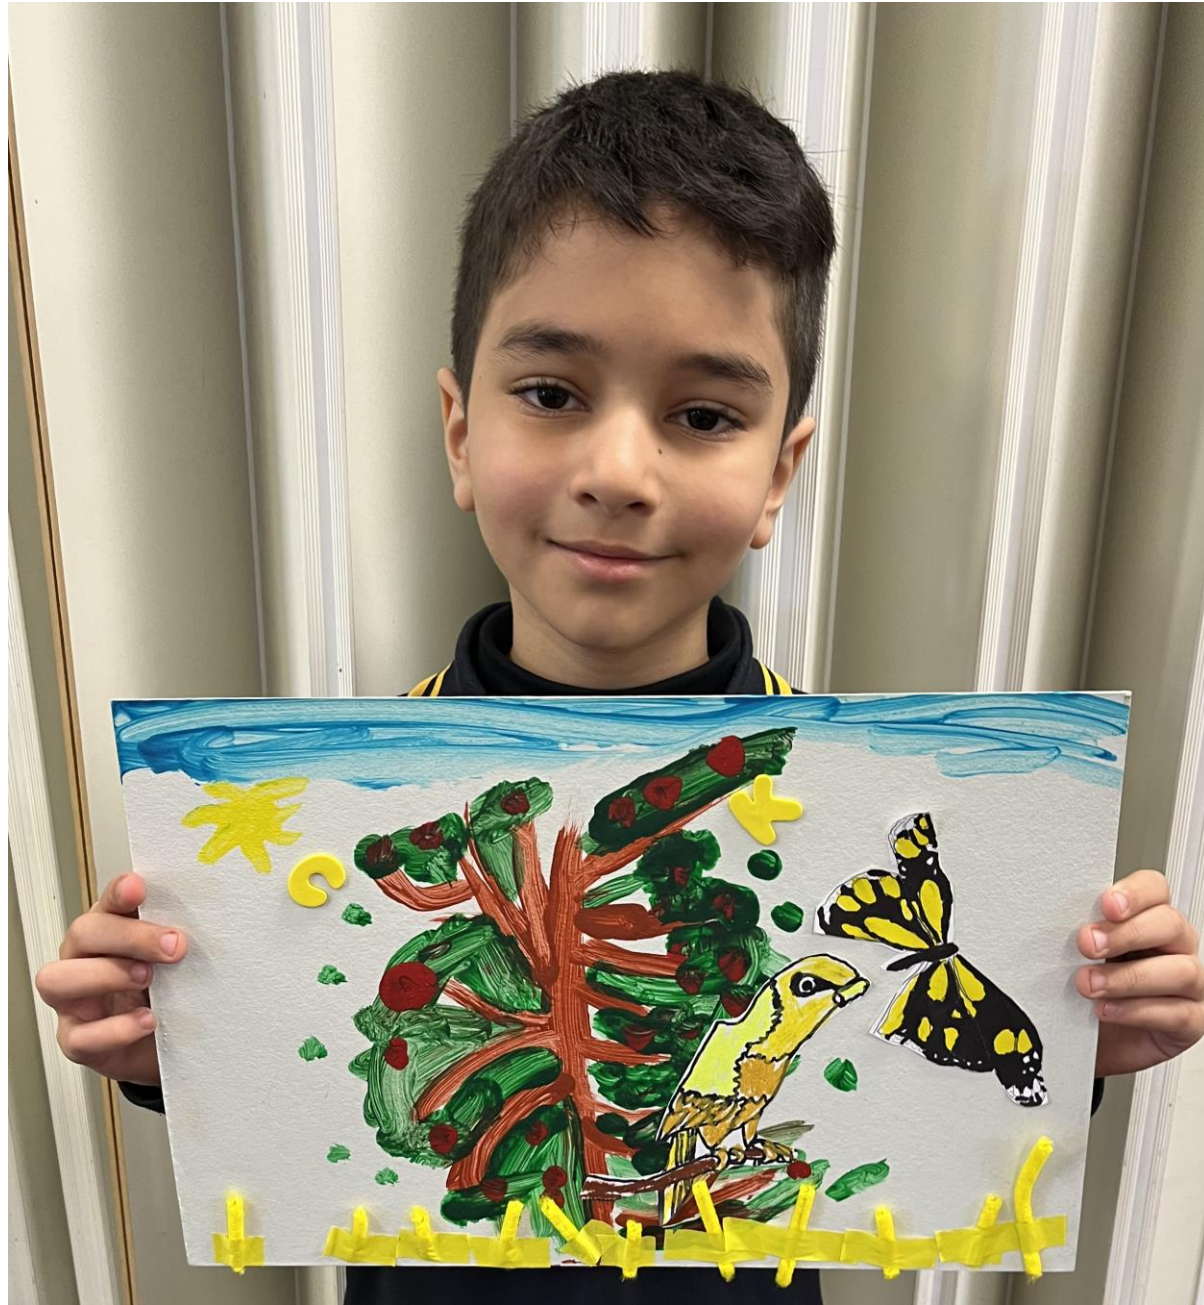

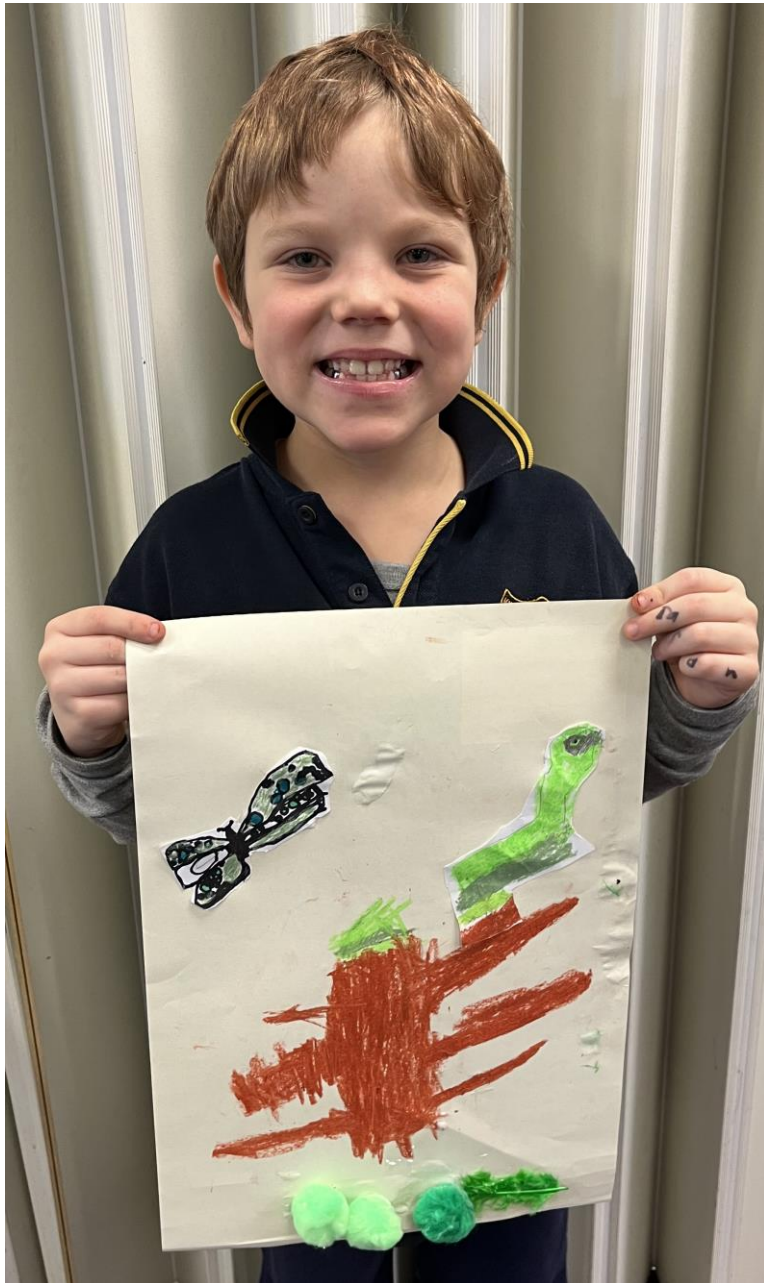

This is my
 tree, I'll stand by their
 side forever and ever till
 the day that I die. My tree
 is not a nobody, none of them are
 They will shine bright like a shooting
 star. I feel their soft coat and listen to
 their sounds I love the tree that I have found.
 Don't cut down my tree, because I will stand
 up I'll fight and fight to prove my trust
 I'll stand by their side through day and
 through night, I love my tree with all my

MIGHT!

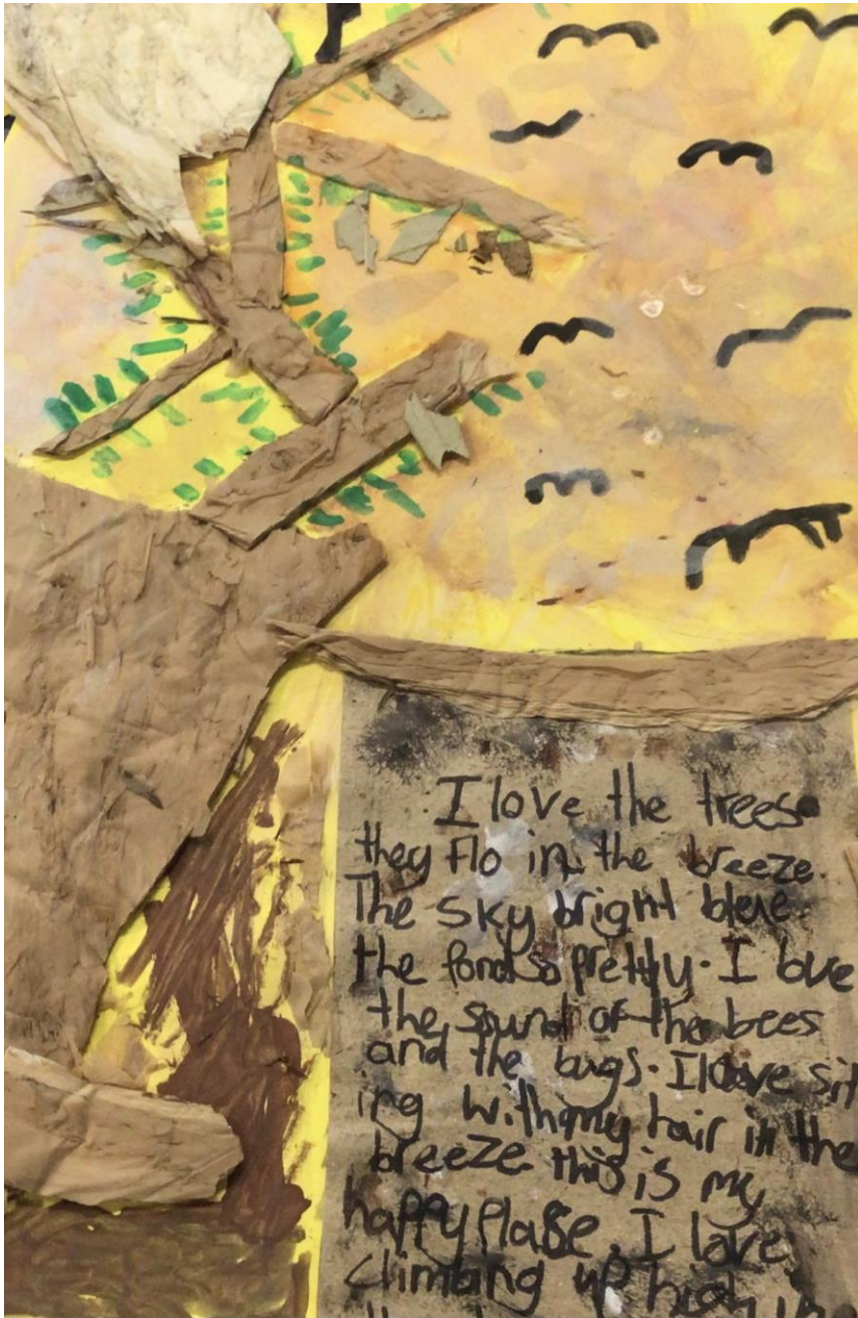

Oh how I love my tree.
It helps me breathe and makes me happy.
I sit under my tree relaxingly.
As I climb my tree I don't get a splinter
or a scratch on my knee.
That's why I love my tree.

I love the trees
they flo in the breeze.
The sky bright blue
the pond so pretty. I love
the sound of the bees
and the bugs. I love sit
ing with my hair in the
breeze. this is my
happy place. I love
climbing up high in

I love the trees
They float in the breeze
The sky bright blue
The pond so pretty
I love the sounds of the bees and the
bugs
I love sitting with my hair in the breezes
This is my happy place
I love climbing high in the trees

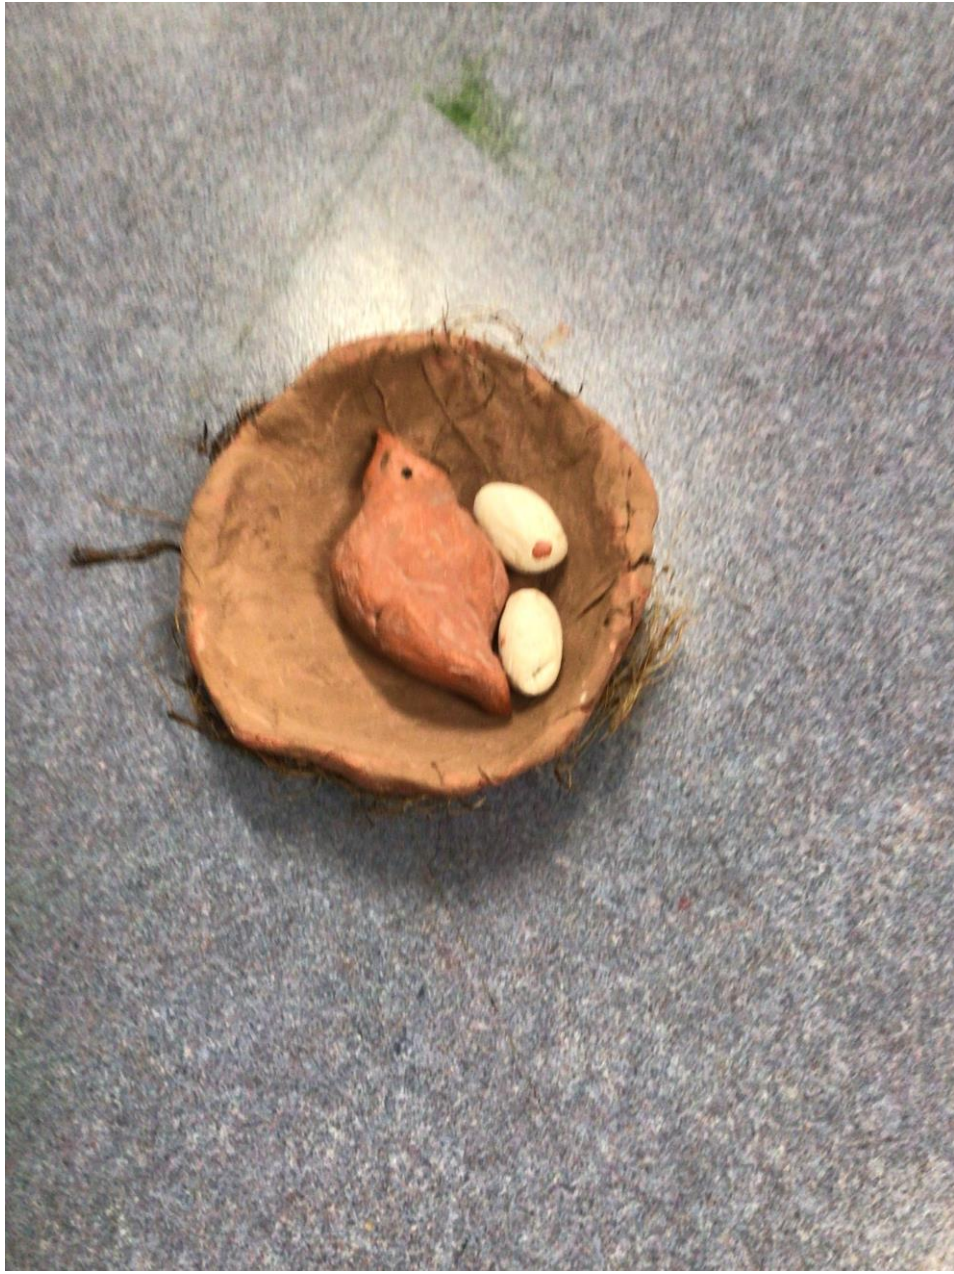

Tree gives me shade.

I lay under my tree.

It gives me oxygen.

My tree is the best because in my tree
birds make nests.

In my tree is a home for birds to sing
In Spring in buds of green.

As the beaut, beaut, beautiful trees
wave in the wind
in the wind
the birds
the berries
and the beautiful bears
and the bees who help produce the trees
but the trees, trees can't live in harmony
because, because
pollution is bad.
